'Developing intercultural competences at SDU' Project Action Plan – Project Leaders: Donna-Marie Jørgensen and Robb Mitchell

Donna-Marie's project aim: 'I strongly believe that it is essential for all to recognise that SDU graduates not only leave with a solid education, but also to possess the relevant new learning and an awareness of working with various cultures in an international setting. I saw this project as a way to address this need.'

Robb's project aim: 'To contribute, even in a small way, to friendly co-existence...perhaps it should go on tour'.

				groupwork
Robb and Donna-Marie responded independently to the project advert, we encouraged a collaborative project, which was				
mainly led by Donna-Marie. Together we planned a workshop for students and staff. There were two main challenges, how to				
make the workshop authentic and how to persuade students to attend. Actions: To offer a workshop on developing				
intercultural competences for students and staff, on the Kolding campus. To provide authenticity by involving companies.				
Actions: Donna-Marie contacted international Danish companies and invited speakers for the workshop; she prepared posters				
(Available from itc.sdu.dk Resources 3) with employees' perspectives from three Danish companies on the importance of				
graduate intercultural competences. The workshop was publicised with the support of Kolding Student Services and Donna-				
Marie. 10 students, a teacher and a Student Services Advisor attended the workshop, their positive feedback led to workshop 2.				
3: Workshop 2 Actions: Donna-Marie re-contacted the companies and a talent scout from Danfoss presented at workshop 2. Workshop 2 was				
attended by 14 students and colleagues from Student Services and Careers. Both workshops were led by Donna and Anne and				
included practical activities focusing on intercultural group-work, managing unconscious bias, viewing and discussing issues				
raised by role plays, reviewing an intercultural competences framework and background information on factors influencing				
	=		-	_
The student feedback was positive and evidenced a need for similar workshops to be available, especially at the start of				
academic years. The student participants decided to establish a Facebook Group for SDU students interested in intercultural
